Testimonials

"I'm so happy you were able to do them in hospital for us! I don't think we would have gotten out to a studio in the early days so it was perfect."

~ Lisa

"With both our newborns, Holly was a kind, caring, & friendly photographer. She had magic tricks to keep our baby settled (which we tried to replicate at home!"

Holly obviously has an abundance of experience with babies - both professionally and with her own.

She worked quickly yet made us feel like our baby was special and unique. She created a comfortable atmosphere & made our baby feel relaxed. This was captured in the beautiful photographs we now have on our family's walls.

Holly was amazing! I have recommended Holly & Sage to everyone having a baby."

~ Steph

"A massive thank you for these beautiful photos! We love them all! It will be hard to choose which to purchase.

We had lots of fun having you at our home for the shoot and your very relaxed style has come through in the beautiful natural shots."

Portraits

Capturing your life with love & light

Hi there.... I'm a people person, my heart sings when in good company. Someone to share, laugh, cry & relive our adventures, shared through storytelling ~ and believe me, I can talk.

When relaxing, you'll find me in the garden harvesting my vegies, planting natives, drinking coffee with chickens, or colouring with my two wicked, yet adorable children.

I'm a fierce monopoly player, a crazy cat lady & if I weren't cooking for my family (my most important people) I'd be out chasing storms. I love to draw but rarely do & I like to cycle with my adoring partner, but rarely do.

However, one thing I do with passion & drive is photography. That's where I focus my energy & search for connection.

Join me & see...

Holly xx

Birth Stories

What about my privates?

Birth photography is a beautiful and emotive documentation of the moments leading up to and primarily the moment your baby enters this world to meet you.

Holly focuses on the emotion and support between the birthing mother and their support partners (not their privates!)

Unseen & unheard, capturing the big and the small moments in between ~ Holly will document the squeeze of a hand, release of laughter, intense focus, looks of love & tears of joy.

Capturing your Birth Story is empowering & can be important for you to look back on. My absolute passion ~ Just ask me!
